company: Lumoscribe Ltd

sector: Photonics Research Center (PRC), Lumoscribe Ltd

department: Photonics Research Center (PRC), Lumoscribe Ltd

main duties: Analysis of complex images coming from multimode optical fibers for sensing purposes.
Implementation of AI models

pre-requirements: Basic knowledge of signal processing, Machine learning implementation, Python

available period for the 6-week internship: 2/6/2025 - 30/09/2025

internship location: M. Savva 12, Geroskipou 8201, Paphos

company website: www.lumoscribe.com

To Apply...

email: theodosiou.antreas@lumoscribe.com

phone number: 99338971

contact person: Antreas Theodosiou

company: RTD Talos Ltd

sector: Συμβουλευτικές υπηρεσίες, Έρευνα και Ανάπτυξη

department: Τμήμα Τεχνολογικής Ανάπτυξης

main duties: Materials characterisation and testing, Life Cycle Sustainability Assessment (Life Cycle Assessment, Social-LCA, Life Cycle Costing), Techno-economic assessment, Statistical and Computational analysis of the system, Report writing, Stakeholder engagement, Dissemination-Communication-Exploitation, GI-GX

pre-requirements: Engineering, Chemistry, Computer Science, Business Administration, Economics, Mathematics and Statistics, Data Science, Graphic Design, Marketing

available period for the 6-week internship: 2/6/2025 - 30/09/2025

internship location: Κέντρο Κύκκου, Μπλοκ Α, 4ος Όροφος, 2404 Έγκωμη, Λευκωσία, Κύπρος

company website: <https://talos-rtd.com/>

To Apply...

email: yp@talos-rtd.com

phone number: 22454333

contact person: Γιάννης Παφίτης

company: Rinnoco Ltd

sector: Information and Communication Technology (ICT) & Scientific Research

department: R&D

main duties: The Intern shall work as Junior Software Developer & Researcher. The Intern will perform the following duties: Aid in software development tasks; Research new technologies; Assist in quality assurance testing; Document code and progress; and Collaborate with the team.

pre-requirements: Computer Science, Theoretical Physics and/or Material Science

available period for the 6-week internship: 2/6/2025 - 1/9/2025

internship location: Periklitou 10 A, Limassol 3047, Cyprus

company website: <https://rinnoco.com/>

To Apply...

email: costa.c@rinnoco.com

phone number: 99784136

contact person: Constantinos Costa

company: SK EMBIO Diagnostics Ltd.

sector: Deep tech

department: Bioengineering Department

main duties: They will perform experimental duties under the supervision of the CSO and Lab Manager, within the scope of the B.EL.D Advanced Salmonella Rapid Testing project.

pre-requirements: BSc and MSc in Biological and/or Microbiological Sciences

**available period
for the 6-week
internship:** 1/6/2025 - 30/6/2025

internship location: Athalassas Ave. 8B

company website: <https://embiodiagnostics.eu/about/>

To Apply...

email: g.demetriou@embiodiagnostics.eu

phone number: 99174885

contact person: George Demetriou

company: Dromon Bureau of Shipping Ltd

sector: Maritime Classification and Certification

department: Research, Development and Innovation

main duties: Εκμάθηση των διαδικασιών που σχετίζονται με την υλοποίηση δράσεων έρευνας και καινοτομίας στον ναυτιλιακό τομέα, συμμετοχή στη συλλογή και ανάλυση τεχνικών και κανονιστικών δεδομένων με τυποποιημένα πρότυπα και διεθνείς ναυτιλιακούς κανονισμούς, υποστήριξη στην προετοιμασία, συγγραφή και υποβολή παραδοτέων (deliverables) στο πλαίσιο ευρωπαϊκών ερευνητικών έργων, εξοικείωση με εργαλεία, πλατφόρμες και μεθοδολογίες για την ανάπτυξη ψηφιακών και καινοτόμων λύσεων και τη συγγραφή νέων ερευνητικών προτάσεων, καθώς και την εκμάθηση διαδικασιών για την ανάπτυξη νέων ή καινοτόμων προϊόντων και υπηρεσιών.

pre-requirements: Τμήμα Ναυπηγών Μηχανικών ή τμήμα Μηχανολόγων Μηχανικών, με καλή γνώση της Αγγλικής Γλώσσας

available period for the 6-week internship: 30/6/2025 - 18/8/2025

internship location: Αλεξανδρείας 4, Block B, 2ος Όροφος, 3013, Λεμεσός

company website: www.dromon.com

To Apply...

email: m.katiri@dromon.com

phone number: 99423002

contact person: Μαρία Κατίρη

company: NovaMechanics Ltd

sector: Cheminformatics, Materials Informatics, Machine Learning, AI

department: Research and Development

main duties: Participate in hands-on development, analysis, and evaluation of machine learning workflows using the Isalos Data Analytics Platform, with additional comparisons to other data analytics tools

pre-requirements: IT, biomedical sciences, chemistry, physics, mathematics

**available period
for the 6-week
internship:** 2/6/2025 - 1/9/2025

internship location: Ammochostou 20, Aglantzia, Nicosia, 2102

company website: <https://novamechanics.com/>

To Apply...

email: hr@novamechanics.com

phone number: 99257609

contact person: Dimitris Mintis

company: Ecliptic Defence and Space

sector: Engineering and Assembly Department

department: Engineering and Assembly Department

main duties: Design (possibly assembly and testing) of advanced components, subsystems & systems utilizing RF and Microwave Technologies for space & defence platforms.

pre-requirements: Electrical Engineering courses, IT skills, ability to work in a team environment and interested in learning and having a passion about new technologies.

available period for the 6-week internship: 2/6/2025 - 16/8/2025

internship location: 14 Kozanis street, 2221 Latsia

company website: www.ecliptic-ds.com

To Apply...

email: info@ecliptic-ds.com

phone number: 22256262

contact person: Maria Konstantinou

company: MaaS Lab

sector: MaaS Lab is a research-based institute specializing in sustainable and innovative mobility solutions.

department:

- Marketing
- Transport
- Developer

main duties:

- Transport Planner/Engineer or Urban Planner: contact research and studies about travel behaviour; data analysis; get involved in the design and pricing of new mobility services.
- Operations Research & Optimisation: work on AI-based optimisation algorithms and dynamic routing for on-demand fleet and for freight/logistics fleet.
- Behavioural analysis and Marketing: get involved into translating the results of social surveys into marketing campaigns and strategies for making travel behaviour more sustainable and communicate the benefits from shifting from car-ownership to usership.
- Software Developer: get involved in the development of a state-of-the-art mobility management platform aiming to optimise transport operations and reduce transport-related emissions (positions: backend, web-front end, mobile front-end, UX design)

available period for the 6-week internship: 2/6/2025 – 30/9/2025

internship location: Spyrou Kyprianou 78, 4043

company website: <https://www.maaslab.org>

To Apply...

email:

m.kamargianni@maaslab.org

phone number:

99435343

contact person:

Maria Kamargianni

company: THERAMIR

sector: Theramir brings together a team of research entrepreneurs with significant experience in the discovery, development and commercialization of innovative cancer pharmaceuticals.

department: R&D

main duties: Experiment Preparation & Participation
Data Collection & Reporting
Safety & Collaboration
Learning & Skill Development

pre-requirements:

- ☒ Βασικές γνώσεις στο αντικείμενο του εργαστηρίου (π.χ. βιολογία, χημεία, ιατρικά εργαστήρια)
- ☒ Ικανότητα τήρησης εργαστηριακών πρωτοκόλλων και διαδικασιών ασφαλείας
- ☒ Προσοχή στη λεπτομέρεια και οργανωτικές δεξιότητες
- ☒ Βασικές δεξιότητες στη χρήση υπολογιστών και λογισμικών ανάλυσης δεδομένων (π.χ. Excel, SPSS, LabView κ.λπ.)
- ☒ Καλή επικοινωνία και ικανότητα συνεργασίας σε ομάδα
- ☒ Γνώση αγγλικής ορολογίας σχετικής με το αντικείμενο του εργαστηρίου

available period for the 6-week internship: 1/6/2025 – 31/7/2025

internship location: ASBIS - ΑΛΚΙΔΑΜΟΥ 1 ΑΓΙΟΣ ΑΘΑΝΑΣΙΟΣ ΛΕΜΕΣΟΣ 4101

company website: <https://www.theramir.com/>

To Apply...

email:

andronikou@theramir.com

phone number:

96698282

contact person:

Μαρία Ιωάννου

company: RSL REVOLUTIONARY LABS LTD

sector:

We understand the unique challenges you face, and our unwavering mission is to enhance your quality of life during treatment. With a background in scientific research and medical innovation, our story is a testament to our dedication to supporting you through every step of your cancer journey.

department:

R&D
PRODUCTION

main duties:

-  Προετοιμασία & Συμμετοχή σε Πειράματα
Τήρηση των πρωτοκόλλων και των διαδικασιών ασφαλείας.
Συμμετοχή στη διεξαγωγή πειραμάτων και δοκιμών.
Χειρισμός και συντήρηση εργαστηριακού εξοπλισμού.
-  Δεδομένα & Αναφορές
Καταγραφή και ανάλυση αποτελεσμάτων.
Τήρηση ακριβών σημειώσεων και εργαστηριακών ημερολογίων.
Σύνταξη αναφορών και παρουσίαση ευρημάτων.
-  Ασφάλεια & Συνεργασία
Συμμόρφωση με τους κανονισμούς υγιεινής και ασφάλειας.
Συνεργασία με συμφοιτητές και επιβλέποντες.
Διατήρηση καθαρού και οργανωμένου εργασιακού χώρου.
-  Εκπαίδευση & Βελτίωση
Απόκτηση δεξιοτήτων στη χρήση εργαστηριακών τεχνικών.
Συνεχής ενημέρωση για νέες μεθοδολογίες και τεχνολογίες.
Συμμετοχή σε συζητήσεις και ανταλλαγή γνώσεων με την ομάδα.

pre-requirements:

-  Για εργαστήρια βιολογίας/χημείας:
Βασική εμπειρία με μικροσκόπια, φυγοκέντρηση, φασματοφωτομετρία
Κατανόηση βασικών αρχών μοριακής βιολογίας/αναλυτικής χημείας
-  Για εργαστήρια υπολογιστών/τεχνολογίας:
Εξοικείωση με προγραμματισμό (Python, R, MATLAB κ.λπ.)
Γνώση βασικών εργαλείων προσομοίωσης και ανάλυσης δεδομένων

§ Για εργαστήρια ιατρικών εφαρμογών:

Βασική κατανόηση ανατομίας, φυσιολογίας και διαγνωστικών διαδικασιών

Ικανότητα λήψης και ανάλυσης βιολογικών δειγμάτων

**available period for
the 6-week
internship:**

1/6/2025 – 31/7/2025

internship location:

ASBIS ΑΛΚΙΔΑΜΟΥ 1 ΑΓΙΟΣ ΑΘΑΝΑΣΙΟΣ ΛΕΜΕΣΟ 4101

company website:

<https://www.rsl-labs.com/>

To Apply...

email:

andronikou@rsl-skin.com

phone number:

96698282

contact person:

Μαρία Ιωάννου

company: **PROMED BIOSCIENCE LTD**

sector:

We are a biotech company that produces collagen-based biomaterials including highly purified medical-grade atelocollagen from animal tissue, to address emergent needs in the research and medical fields.

department:

R&D
PRODUCTION

main duties:

 Experiment Preparation & Participation
Follow protocols and safety procedures.
Assist in conducting experiments and tests.
Operate and maintain laboratory equipment.

 Data Collection & Reporting
Record and analyze experimental results.
Maintain accurate notes and lab journals.
Prepare reports and present findings.

 Safety & Collaboration
Comply with health and safety regulations.
Work collaboratively with peers and supervisors.
Keep the workspace clean and organized.

 Learning & Skill Development
Develop technical skills in laboratory procedures.
Stay updated on new methodologies and technologies.
Engage in discussions and knowledge sharing with the team.

pre-requirements:

- ☒ Βασικές γνώσεις στο αντικείμενο του εργαστηρίου (π.χ. βιολογία, χημεία, ιατρικά εργαστήρια)
- ☒ Ικανότητα τήρησης εργαστηριακών πρωτοκόλλων και διαδικασιών ασφαλείας

Μαρία Ιωάννου

company: SKYLD SECURITY AND DEFENCE LTD

sector: R&D, ICT, SECURITY, DEFENCE

department: ADMINISTRATION/R&D

main duties: As an R&D-focused company in the fields of ICT, security, and defense, Skyld Ltd's internship positions in both the R&D and administration departments would involve diverse responsibilities. Here are the main duties for interns in each department:

Data Retrieval and Analysis:

- Retrieve relevant data from open sources such as government databases, industry reports, market research firms, and academic journals.
- Conduct thorough analysis of data to identify market trends, competitive landscape, and opportunities for business growth.
- Organize and present data in a clear and concise manner for strategic decision making

Corporate Strategy Development:

- Assist in the development of corporate strategies aimed at achieving organizational goals and objectives.
- Conduct SWOT analysis to identify strengths, weaknesses, opportunities, and threats facing the organization.
- Collaborate with team members to brainstorm innovative ideas and strategic initiatives.

Action Planning:

- Contribute to the formulation of actionable plans and initiatives to implement corporate strategies.
- Develop detailed timelines, milestones, and resource requirements for each action plan.
- Monitor progress of action plans and provide regular updates to the team.

Business Planning:

- Support the creation of comprehensive business plans outlining the company's vision, mission, and strategic priorities.
- Assist in market research and analysis to inform business plan development.
- Contribute to financial projections and budgeting processes as needed.

Documentation and Reporting:

- Prepare detailed documentation of corporate strategy, action plans,

and business plans for review and presentation.

- Compile regular progress reports and presentations for stakeholders, highlighting key findings and recommendations.

Attention to Detail:

Demonstrated attention to detail and accuracy in completing tasks, especially in administrative roles where precision is crucial.

Interpersonal and Communication Skills:

Strong interpersonal skills and the ability to work effectively in a multicultural team environment.

Excellent communication skills, including the ability to convey complex ideas clearly and concisely.

Adaptability and Willingness to Learn:

Flexibility and adaptability to work on various tasks and projects as needed.

Eagerness to learn and willingness to take on new challenges and responsibilities.

pre-requirements:

As Skyld Ltd, a company engaged in R&D EU-funded projects in ICT, security, and defence, offering internships to students in both R&D and administration departments requires candidates to meet certain minimum requirements to ensure they can contribute effectively to the projects. Here are the minimum requirements for potential interns:

- Currently enrolled in a bachelor's or master's degree program in Business Administration, Management, Marketing, Finance, Economics, or related field preferably at Master's Level.
- Strong analytical skills with the ability to gather, interpret, and present data effectively.
- Excellent written and verbal communication skills in English.
- Proficiency in Microsoft Office suite, particularly Excel and PowerPoint. Especially Excel
- Ability to work independently and collaboratively in a fast-paced environment.
- Prior experience with corporate strategy development or business planning is a plus.

phone number: 99997644

contact person: Μάριος Ζίττης

company: AnaBioSi-Data Ltd

sector:

Η AnaBioSi-Data εξειδικεύεται στην ανάπτυξη καινοτόμων λύσεων βασισμένων στην τεχνητή νοημοσύνη και την ανάλυση δεδομένων για την εξατομικευμένη διάγνωση και θεραπεία του καρκίνου. Μέσω πειραμάτων in-vivo, ανάλυσης απεικονιστικών δεδομένων και εργαλείων βιοστατιστικής, η εταιρεία προσφέρει λογισμικό που ενισχύει την πρόγνωση, διάγνωση και θεραπευτική απόφαση, εστιάζοντας σε τομείς όπως η ελαστογραφία και η ανίχνευση βιοδεικτών.

department:

Ανάλυσης απεικονιστικών δεδομένων

main duties:

Προεπεξεργασία και ανάλυση απεικονιστικών δεδομένων με χρήση εξειδικευμένων εργαλείων και λογισμικού.
Συμμετοχή στην ανάπτυξη αλγορίθμων εξαγωγής χαρακτηριστικών (features) από ιατρικές εικόνες.
Συνεργασία με την ερευνητική ομάδα για την αξιολόγηση και οπτικοποίηση των αποτελεσμάτων.
Τεκμηρίωση διαδικασιών και σύνταξη βασικών αναφορών για την πρόοδο των εργασιών.

pre-requirements:

Φοιτητής/τρια σε κλάδους όπως: Μηχανολόγος Μηχανικός, Βιοϊατρική Μηχανική, Πληροφορική, Επιστήμη Δεδομένων.
Βασική γνώση προγραμματισμού (Python ή MATLAB).
Κατανόηση βασικών εννοιών επεξεργασίας εικόνας και ανάλυσης δεδομένων.
Ικανότητα συνεργασίας, συνέπεια και διάθεση για μάθηση σε ερευνητικό περιβάλλον.

available period for the 6-week internship:

2/6/2025 – 2/7/2025

internship location:

Λεωφ. Αθαλάσσης 176, Στρόβολος 2025, Κύπρος

company website: <https://www.anabiosi-data.com/>

To Apply...

email: valantis.vo@gmail.com

phone number: 99640689

contact person: Χρυσοβαλάντης Βουτουρή

company: PHOEBE Research and Innovation Ltd

sector: ICT/Engineering

department: -

main duties: Participation in trainings/seminars/meetings.
Study of tools and services of the company.
Study of certain research projects workplan.
Design and development of ICT/Engineering solutions in the smart water systems and/or smart buildings domains.
Presentation to team.

pre-requirements: Good knowledge of English language.
3+ years in ICT/Engineering studies.
Interest in systems engineering and software solutions.

available period for the 6-week internship: 1/6/2025 – 30/9/2025

internship location: 24 Promitheos str., Flat 102, Aglantzia, 2113, Nicosia, Cyprus

company: IREROBOT LTD

sector: IREROBOT LTD operates in the technology and robotics sector, specializing in haptic technology, extended reality (XR), and assistive devices. The company develops innovative solutions like HGLOVE, which integrates haptics with XR gloves, and ACETT, a tactile feedback device designed to assist individuals with hearing impairments.

department: Research & Development (R&D), Technology & Innovation and Engineering & Robotics

main duties: Conduct research on emerging haptic technologies and XR applications, assist in the development and testing of haptic devices and assistive technologies, collaborate with the R&D team to enhance prototyping processes, support the documentation and reporting of research findings and technological advancements, analyze scientific literature and contribute to the design of experimental studies and participate in technology validation and user testing for innovative solutions.

pre-requirements: Field of Study: Engineering (Electrical, Electronic, Mechanical, or Biomedical), Computer Science, Robotics, or a related field.
 Technical Skills: Experience with haptic technologies, XR, or embedded systems is a plus, familiarity with programming languages such as Unity C#, Python, C, or C++, basic knowledge of hardware development, PCB design, or sensor integration, understanding of signal processing and machine learning (optional but beneficial).
 IT Skills: Experience with simulation tools (e.g., MATLAB, LTspice, or COMSOL) is preferred, ability to use 3D modeling software (e.g., SolidWorks, Fusion 360) is a plus.
 Languages: English (Fluent) – Required for technical documentation and communication and knowledge of additional languages (e.g., Greek, French, Italian) is a plus.
 Soft Skills: Strong problem-solving and critical thinking abilities, ability to work both independently and in a team and willingness to learn and adapt in an innovative environment.

available period for the 6-week internship: 2/6/2025 – 11/8/2025

internship location: 25A Karpenisiou, Strovolos, 2021, Nicosia

company: A.N.E.V. Consulting Services Ltd

sector: Educational Innovation

department: Instructional Design and STEAM teaching

main duties: The intern will actively support the ongoing research, development, and implementation activities of the STEMFREAK Centre for Research and Innovation in Education. Main responsibilities include:

Educational Content Development

Assist in designing and producing educational materials and digital content for STEAM programs across age groups (primary to secondary and VET learners).

Support curriculum design and the integration of innovative methodologies such as Project-Based Learning, UDL, and e-Portfolios.

Research Assistance

Participate in educational research projects, including literature reviews, data collection, and analysis related to STEAM education and educational technology.

Contribute to reporting and dissemination activities, including drafting briefs and visual summaries.

Support for Workshops and Events

Assist in organizing and running STEM/STEAM workshops, hackathons, and teacher training events.

Help in preparing learning resources, setting up equipment, and facilitating learner engagement.

Digital Tools and LMS Management

Support the management and content population of STEMFREAK's Learning Management Systems (LMS).

Participate in testing and user feedback sessions of educational digital tools developed or used by STEMFREAK.

Communication and Outreach

Assist in maintaining the organization's online presence (website, social media, newsletters).

Contribute to outreach campaigns targeting students, educators, and schools.

company: SIM4FLOW LTD

sector: AI / Machine Learning; Computational Fluid Dynamics (CFD); Biomedical Engineering

department: R & D department

main duties:

- Support the development and validation of AI/ML algorithms for aneurysm rupture risk prediction
- Assist with data preprocessing, feature engineering, and model evaluation using real clinical datasets
- Contribute to CFD simulations and data interpretation related to blood flow dynamics
- Collaborate with R&D team members on literature reviews, experiments, and documentation
- Learn about real-world challenges in MedTech innovation and regulatory environments

pre-requirements:

Enrolled (undergraduate in Biomedical Engineering, Computer Science, Mechanical Engineering, Electrical Engineering, or a related field.

IT Skills:

- Basic proficiency in Python is required.
- Familiarity with AI/ML libraries (e.g., scikit-learn, TensorFlow, or Keras) is a strong plus.
- Understanding of numerical simulations or CFD tools (e.g., ANSYS Fluent, OpenFOAM) is preferred but not mandatory.

Languages:

- Proficiency in English (written and spoken) is required, as it is the working language of our team and documentation.

Other:

- Interest in AI in healthcare, biomedical simulations, and startup environments
- Ability to work both independently and collaboratively
- Availability to commit full-time for 6 weeks during summer 2025

company: MetaForge Labs

sector:

MetaForge Labs is an innovative startup specializing in additive manufacturing and prototype product development. Our expertise spans across the intricate synergy of mechanical, electrical, and embedded systems. Our business model is based entirely on advanced technologies which classifies MFL as a deep-tech company that utilizes advanced materials and advanced 3D printing technologies to develop and commercialize high-tech engineering innovations and applicable scientific advances for Industry 4.0.

department:

Research and Development

main duties:

We are looking for a skilled Embedded Engineer with experience in electrical circuit design and PCB layout. The successful candidate will be integral in developing software and hardware solutions for our medical devices, ensuring both functionality and compliance with industry standards.

Key Responsibilities:

- Design and develop software for embedded devices and systems, taking projects from concept to production.
- Design electrical circuits and create PCB layouts for new medical device prototypes.
- Test, troubleshoot, and optimize hardware designs.
- Collaborate with the R&D team to improve system performance, focusing on stability and scalability.
- Implement software with real-time operating systems and validate new product designs.
- Provide support for post-production issues, enhancing system capabilities and resolving complex problems.
- Review code and design and maintain documentation on development processes.

pre-requirements:

Qualifications:

- Bachelor's or Master's student in Computer Science, Electrical Engineering, or related field.
- Previous experience in embedded system design and hands-on skills in electrical circuit design and PCB layout.
- Proficiency in C, C++, Python, and other programming languages.
- Experience with PCB design software such as Altium Designer, Eagle, or similar.
- Understanding of real-time operating systems and hardware/software integration.

- Excellent problem-solving, organizational, and communication skills.

Preferred Skills:

- Knowledge of IoT architectures and familiarity with mobile integration.
- Ability to work collaboratively in a team environment and lead projects.

Benefits:

- Flexible work arrangements with the option to work remotely.
- Competitive remuneration package, including opportunities for professional development.
- A chance to contribute to projects that significantly enhance healthcare outcomes.
- A chance to work along a highly skilled and motivated team of engineers.

**available period

company: **ENGINO-NET LIMITED**

sector:

Η Engino Net Limited είναι μια εταιρεία που δραστηριοποιείται στον τομέα της ανάπτυξης και κατασκευής εκπαιδευτικών παιχνιδιών και συστημάτων ρομποτικής για παιδιά και νέους. Οι τομείς δραστηριότητάς της περιλαμβάνουν:

Εκπαιδευτικά παιχνίδια και κατασκευές: Η Engino είναι γνωστή για τη δημιουργία και διάθεση παιχνιδιών και κατασκευαστικών kit που βοηθούν τα παιδιά να μάθουν για τις επιστήμες, τη μηχανική, την τεχνολογία, την τεχνική κατασκευή και τη ρομποτική.

Ρομποτική και STEM: Ειδικεύεται στην ανάπτυξη εκπαιδευτικών εργαλείων που ενσωματώνουν τις αρχές της ρομποτικής και των STEM (Επιστήμη, Τεχνολογία, Μηχανική και Μαθηματικά). Αυτό περιλαμβάνει ρομποτικά kit που επιτρέπουν στους μαθητές να μάθουν μέσω του παιχνιδιού.

Ψηφιακή και διαδραστική μάθηση: Η εταιρεία αναπτύσσει επίσης εφαρμογές και προγράμματα που συνδυάζουν τη φυσική κατασκευή και τη διαδραστική μάθηση μέσω λογισμικού, ώστε οι μαθητές να μπορούν να σχεδιάζουν και να προγραμματίζουν τα δικά τους έργα.

department:

Mechanical Design Engineer

main duties:

- Μάθετε και Αναπτυχθείτε: Βουτήξτε στον κόσμο των STEM και της ρομποτικής με προγράμματα εκπαίδευσης και ένταξης που έχουν σχεδιαστεί ειδικά για νέους μηχανικούς.
- Καινοτομήστε και Δημιουργήστε: Ανάπτυξη έργων makerspace DIY που συνδυάζουν ξύλινες επιφάνειες κομμένες με λέιζερ, εξαρτήματα 3D εκτύπωσης, μέρη ENGINO και ηλεκτρονικά όπως Arduino και Microbit.
- Χειροποίητη Πρωτοτυποποίηση: Σχεδιάστε και δοκιμάστε νέα προϊόντα χρησιμοποιώντας εκτυπωτές 3D, κοπτικά λέιζερ και λογισμικό CAD.
- Εμπνεύστε Άλλους: Διοργανώστε συναρπαστικά εργαστήρια STEM και ρομποτικής για παιδιά (ηλικίας 4-15 ετών) και επαγγελματίες, ενισχύοντας τη δημιουργικότητα και την περιέργεια. (Να διδάσκει και να εκτελεί τα διάφορα εργαστήρια που προσφέρονται στα κέντρα μας όπως STEM και MAKERSPACE για μαθητές ηλικίας 3 και άνω χρησιμοποιώντας το σύστημα ENGINO, το λογισμικό και τα σχέδια μαθημάτων, παρέχοντας επίσης και σχόλια για βελτίωση.)
- Συνεργαστείτε: Εργαστείτε μαζί με ταλαντούχες ομάδες σε τομείς όπως ο σχεδιασμός προϊόντων, το λογισμικό, τα ηλεκτρονικά και το μάρκετινγκ

pre-requirements:	Σπουδαστές Ηλεκτρολόγων Μηχανικών, Μηχανολόγων Μηχανικών, Επαγγελματικά Εκπαιδευτικά Προγράμματα

company: Crowdbase Ltd

sector: Financial Services - Crowdfunding Platform

department: Operations

main duties:

1. Regulatory & Compliance Research Intern
Responsibilities:
Conduct comprehensive research on local regulatory frameworks related to equity crowdfunding within selected European Union markets (outside Cyprus and Greece), identifying licensing requirements, compliance procedures, and legal constraints.
Analyse existing regulatory procedures under the European Crowdfunding Service Providers Regulation (ECSPR) and suggest innovative approaches to streamline Crowdbase's compliance and operational processes.
Support the development of clear and actionable guidelines for expanding Crowdbase's operations into additional EU markets.
Required Background:
Pursuing or recently completed a degree in Law or a related legal field.
Strong research skills and analytical ability.
Familiarity with regulatory frameworks or an interest in European financial legislation would be advantageous.

2. Commercial Research Intern
Responsibilities:
Perform detailed market research on the European crowdfunding landscape, including competitor benchmarking, fee structures, market penetration, and customer segmentation.
Identify underserved markets with high growth potential and provide strategic recommendations for market entry.
Prepare market analysis reports, summarising key findings and actionable insights for Crowdbase's commercial strategy and investor engagement activities.
Required Background:
Pursuing or recently completed a degree in Business Administration, Finance, Marketing, or a closely related field.
Proven ability in market research, competitive analysis, and strategic thinking.
Strong communication skills, both written and verbal, with proficiency in report preparation and data presentation.

pre-requirements: 1. Regulatory & Compliance Research Intern
Responsibilities:

Conduct comprehensive research on local regulatory frameworks related to equity crowdfunding within selected European Union markets (outside Cyprus and Greece), identifying licensing requirements, compliance procedures, and legal constraints.

Analyse existing regulatory procedures under the European Crowdfunding Service Providers Regulation (ECSPR) and suggest innovative approaches to streamline Crowdbase's compliance and operational processes.

Support the development of clear and actionable guidelines for expanding Crowdbase's operations into additional EU markets.

Required Background:

Pursuing or recently completed a degree in Law or a related legal field.

Strong research skills and analytical ability.

Familiarity with regulatory frameworks or an interest in European financial legislation would be advantageous.

2. Commercial Research Intern

Responsibilities:

Perform detailed market research on the European crowdfunding landscape, including competitor benchmarking, fee structures, market penetration, and customer segmentation.

Identify underserved markets with high growth potential and provide strategic recommendations for market entry.

Prepare market analysis reports, summarising key findings and actionable insights for Crowdbase's commercial strategy and investor engagement activities.

Required Background:

Pursuing or recently completed a degree in Business Administration, Finance, Marketing, or a closely related field.

Proven ability in market research, competitive analysis, and strategic thinking.

Strong communication skills, both written and verbal, with proficiency in report preparation and data presentation.

company: APPRECI

sector: FAM TECH

department: Tech R&D

main duties: The intern will play a key role in supporting the enhancement of Appreci's existing AI-powered matching system, which connects families with vetted care and education providers. Their duties will include analysing user feedback and platform data to inform improvements and assisting in the redesign of the algorithm to increase accuracy, personalization, and integration with emerging systems. The intern will collaborate closely with the innovation and development teams, contributing to a real-world application of AI within a socially impactful, early-stage digital platform.

pre-requirements: The ideal intern should be pursuing or have recently completed studies in Computer Science, Artificial Intelligence, or a related field. They should have a foundational understanding of machine learning principles, basic proficiency in Python, and exposure to data analysis tools. Experience with version control systems such as Git, strong analytical thinking, and problem-solving skills are essential. Excellent communication skills in both Greek and English are required. A genuine interest in ethical AI, early childhood education, and social impact is highly valued, as is the ability to work in a hybrid or fully remote setting.

available period for the 6-week internship: 2/6/2025 – 30/9/2025

internship location: 5A Antigonus street, Larnaca 6036, Cyprus.
